To the south is an area known as the Dukeries, where four immensely rich Dukes in the 19th century had vast estates that bordered each other. In the 1590s the very wealthy Countess of Shrewsbury built Hardwick Hall, one of the most magnificent houses of the Tudor Age. At Southwell we look at the cathedral, which was begun in the 11th century and is an outstanding achievement of simple Romanesque design. | UNITED KINGDOM | English-100 | 2019 | | PG | | Y | | |

At the key industrial city of Duisburg, the river Ruhr flows into the river Rhine, whose course we will follow south for the rest of this journey. | 2022-11-20 | 1930 | Culture & Society | Saving Venice | Premiere | Saving Venice | | 0 | Venice is one of the most iconic cities on the planet, its location driving its economic prosperity whilst leaving it vulnerable to floods. The first settlers drove wood piles into the lagoon's soft mud, making it strong enough to bear weight, a technique which supports the entire city. Samples from 1000-year-old piles show how the mud slows down the water's rotting of the wood, but increasingly frequent floods pose a new threat. Faced with losing their city to climate change, Venetians are turning to revolutionary engineering, restoration of the natural environment and knowledge from their past. Only by using multiple approaches can they hope to save Venice. | UNITED KINGDOM | English-70; Italian-30 | 2022 | | | | | Y | |

| 2022-11-21 | 2130 | Culture & Society | Qatar: A Dynasty With Global Ambitions | Premiere | Qatar: A Dynasty With Global Ambitions | | 0 | Host of the 2022 next football World Cup, Qatar is as tiny as it is immensely rich. Torn between Western modernism and Bedouin conservatism, ruled by the iron fist of a royal family, it sits on the planet gas field and is a major geopolitical Middle East player. This World Cup will be a symbol of the success of the 'Qatar start-up' created by the House of Thani, a family saga with an almost romantic dimension. With its billions spent on everything, its princes and princesses with glamorous photos worthy of Vanity Fair covers and its palace revolutions, the Al Thani dynasty - which could be described as the 'Kennedys of the Middle East' - will have succeeded in three generations in transforming a corner of inhospitable desert into a global capital. This unauthorised portrait of the rulers at the head of the richest country per capita on the planet will contrast the nation's extremely rapid success story with its darker side: a diplomacy of corruption, worrying investments across the planet, the exploitation of quasi-slaves from Asia; but above all, the financing of the Muslim Brotherhood and multiple armed Islamist groups, some of which are terrorist, throughout the Arab Spring. | FRANCE | English-50; Arabic-25; French-25 | 2022 | | | | | |
