2023-01-22	1935	History	Great Wall Of China: The Hidden Story	Great Wall Of China: The Hidden Story, The		0	The Great Wall is the spectacular historic embodiment of China stretching thousands of miles across barren deserts and treacherous mountains before finally plunging into the sea, all to defend the nation from the rest of the world. The Great Wall, the symbol of China itself, has been the focus of much of this remarkable archaeological activity. As new discoveries on the Great Wall are revealed, our understanding of this amazing structure and its origins, functions and significance - both as a political border, a statement of power and a military defence line - continues to grow. For centuries the origin of Attila and the Hun people has remained a mystery. Now, an incredible discovery in remote Kazakhstan is unlocking the darkest secrets of the Hun. A team of archaeologists have unearthed remarkable Hun treasures, including a priceless golden horse harness that could be a clue to their military successes. This documentary unpacks the key moments in Attila's brutal rise, charting the Huns steady march deep into Europe, and leading to the ultimate showdown between the king's bloodthirsty army and the Roman Empire - a battle that will decide the fate of the superpower. For centuries, the Trojan War was dismissed as myth. An action-packed war story that tells of the siege and eventual destruction of Troy. A legend passed down through the ages. Now, archaeologists are working to uncover incredible new evidence to expose the truth behind the tale. This documentary uses high end graphics to bring the story of the war to life and follows investigators as they hunt for new clues. Breath-taking aerial footage exposes the key archaeological sites and we are alongside archaeologists as they uncover new finds. CGI rebuilds the lost buildings of Troy.
